

ARTS & CRAFTS

GUIDING QUESTIONS

Ask 1-2 questions before, during, and after your activity!

Before an activity

- What do you think we can do today to take care of and share our supplies?
- How will we keep our projects and spaces safe while we are working?
- What do you know about this type of art, project supplies, theme?

During an activity

- How is your project going?
- What do you like most about your project so far?
- How did you decide to create it this way (color choices, materials, focus matter)
- What do you need help with?

After an activity

- How did the project go?
- What are you most proud of?
- How did it feel to make this project?
- What might you do differently if we did this project again?
- What tips would you share with someone else who was going to do this project?
